## A Message from the Mayor

It is my pleasure to introduce the Fernley Chamber of Commerce's latest Community Profile and Membership Directory.

The Fernley Chamber of Commerce plays a vital role in the economic health of our community. The Chamber's involvement in activities and issues that affect business owners and employees has helped our economy remain strong while growing in exciting, new directions. The Chamber's commitment to enhancing the commercial vitality of our community ensures job creation and a wide variety of quality goods and services available to Fernley.

As Mayor, I enjoy the opportunity to work closely with the Chamber's leadership on a wide array of issues. I look forward to continuing our productive and beneficial relationship. I applaud the staff, officers and directors of the Chamber of Commerce for their leadership and for helping make Fernley and the surrounding area a wonderful place to live, raise families and do business.

I encourage you to support our Chamber members listed in this directory. Shopping locally for products and services continues to build a strong local economy.

Together with the Chamber and its members, we continue to make Fernley a city second to none.

Sincerely,

A handwritten signature in black ink that reads "LeRoy Goodman". The signature is written in a cursive style.

LeRoy Goodman

## Welcome from the Chamber President

**M**y wife and I moved to Fernley in September of 2001 from southern CA. She grew up here, but it was my first experience away from a big city. So my perspective of Fernley is somewhat new and limited. We are raising two little boys and own a family business, so my outlook is from that perspective too. It has been an amazing process and journey being a part of Fernley's growth in just the past years. I feel fortunate to be a part of several groups of very nice generous people to help open the doors of opportunity and experience.

I have clients tell me all the time how nice the people are in this town. I totally agree and feel that is why, "the sky is the limit," when it comes to the social, economic, cultural, and civic potential Fernley possesses. I have seen this community rally through adversity on a national scale. I have seen generosity from people's coming together that has shocked a national charity. I have seen this community quadruple in size and not lose its small town feel. I have seen government go through three changes and each time continue to look forward and set new goals. Fernley never fails to amaze me in so many ways, ways that you may not see unless you are involved.

I am happy to be involved in the future of Fernley. I know Fernley has historical past, but from my perspective, I think about its future and I see unlimited potential. Once we get through some growing pains, I think we are a city poised for a bright future due to our location, our affordability, our leaders in business and government, our schools, our unique blend of citizens, and our never give up attitude. I am happy to be raising my family in Fernley where everyone supports and looks out for one another and has our success as the common goal.

## The Fernley Chamber
